POWERFUL
1HP MOTOR

Home Appliances was started as a small work shop in the year 1987. The little company grew fast.

Our product ranges like Mixer Grinder, Irons, Non-stick Cookware, Gas Lighters, Blenders etc. Each and every product is designed and developed keeping the most important thing in mind i.e. quality.

The company has lately hit upon a new idea, the company constantly studies on home appliances and buying habits and seeks to find solutions to emerging needs through...incorporating technology advances in products, innovating more benefits and reviewing service efficiency during warranty and otherwise.

We are pleased to state that we have not only entered in the house but in the heart of its happy and satisfied customers.

We make Quality...

METALLIC BLENDER
